

Rainbow Resource Co. January 2017 Newsletter

It's a new year and time to start thinking about starting some new quilting projects - and we have the perfect panels to inspire you! Northcott's Artisan Spirit line has added some breathtaking digital prints called Dreamscapes. We have both the panels as well

as the coordinating fabrics (which are just as stunning).

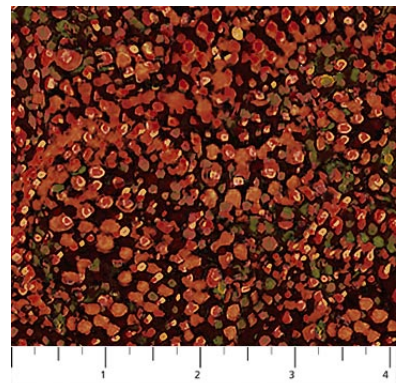

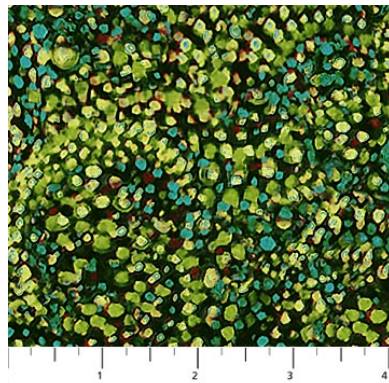

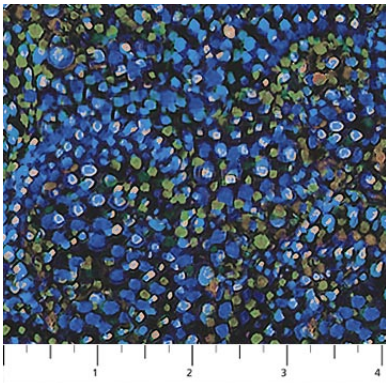

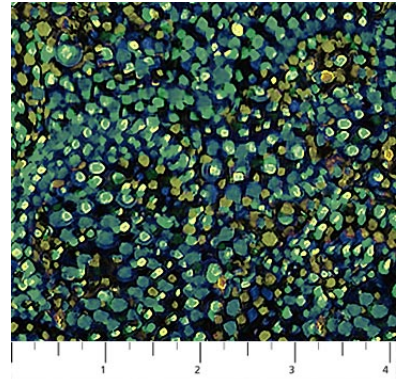

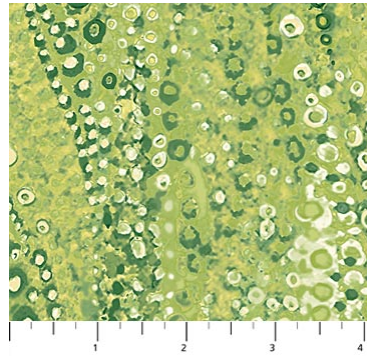

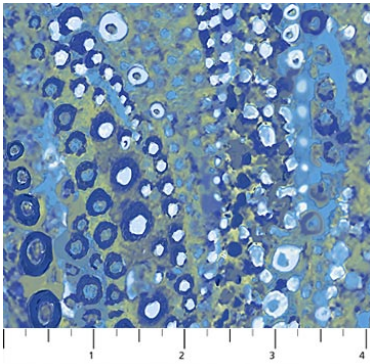

The colors on this panel are so vibrant - it's hard to capture in a newsletter! Imagine the fun quilting you could do, mirroring the swirls in the sky, on the tree, and in the fields!

This panel measures approximately 28" x 43".
\$12.75

There are two smaller panels, as well, each measuring approximately 14" x 22". These come with 2 of the same design – perfect for a 2-sided tote bag, or share with a friend!
\$6.50

The coordinating fabrics include light and dark greens and blues and rusts.
\$11.50 per yard.

And those fabrics coordinate beautifully with another panel we're featuring – this one from Hoffman's Beneath the Waves collection.

Size: 23" x 44" \$10.00

I'm working on a project with the panel using this Tigerfish batik in the border:

Our recent storms up here on the North Coast had me retreating to my sunroom to do some dyeing of appliques. I've got these cute hearts all ready for your **Valentine's Day** projects:

Each 3.75" x 4.5" - \$6.00

Each 2.75" x 3" - \$4.00

Each 1.5" to 2" - \$2.00-2.50

Each 3.75" x 4" - \$6.50

If you're planning to go to the Road to California show in Ontario, please stop by my booth so you can see these fabrics and appliques in person!
